Ceramica Cielo rispetta l'ambiente: la sua politica è mirata al risparmio dell'acqua.L'azienda infatti ricicla il 95% delle acque di lavorazione, attraverso sistemi di depurazione delle acque interne, e produce sanitari di alta gamma a risparmio di acqua. Infatti i sanitari di Ceramica Cielo contrassegnati da questo marchio funzionano con solo 4,5 Lt di acqua, a differenza di altri che necessitano di almeno 6 o 7 litri.
Ceramica Cielo respects the environment: its policy aim at saving water. Our factory recycles 95% of production water , thanks to an internal water cleaning system and our high quality sanitary wares are made for saving water, too. In fact, all Ceramica Cielo articles labelled with this mark have a discharge system that needs only 4,5 litres of water, instead of 6 or 7 litres as for other sanitary wares).
